

CHORD TRIGGER DIAL 7

This Max for Live device lets you create and change chords quickly. You can set 7 notes to use as root notes/trigger notes and dial through 14 chord settings for this each note. This becomes very useful if you set an external MIDI controller to control the 'chord-dial' as you can now dial very quickly through different chords.

Click to (de-)activate
Note Input

When you click on "S" (=Sync) -
The note pitch input field starts
flashing and waits for you to
play a note to detect and set the
note pitch here automatically.

Set MIDI Note pitch for root note
and for triggering.

Dial between 14 chord settings
